

MAKROLON[®] AR

Description

MAKROLON[®]AR polycarbonate sheet is an abrasion and UV resistant sheet that offers glass-like surface hardness coupled with the impact strength of polycarbonate. Additionally, MAKROLON AR polycarbonate sheet offers resistance from yellowing and hazing for longer service life in high profile applications.

Applications:

Typical applications for MAKROLON AR polycarbonate sheet include school, hospital and bus shelter glazing, and is also used extensively in correctional and psychiatric facilities. MAKROLON AR polycarbonate sheet also performs well for view windows and machine guards in harsh chemical environments. However, due to its abrasion-resistant coating, we recommend that MAKROLON AR polycarbonate sheet only be used in flat applications.
