

SignPly Benefits

- Impact resistant, colorfast surface is warranted not to fade, flake or peel.
- Average outdoor life expectancy is 5 to 7 years if properly edge sealed.

Construction

- SignPly is composed of a painted aluminum face on premium furniture-grade, exterior plywood.
- Factory-baked, polyester paint on the finished side with a mill-finished aluminum backer to provide balance and prevent warping.

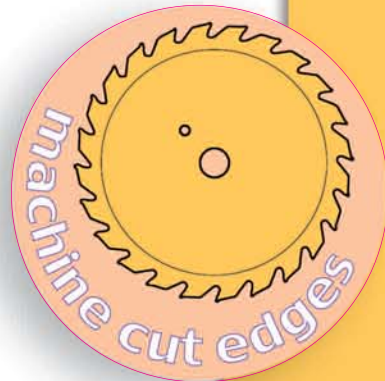

Recommended applications

Ideal for cut-outs, wall or fence mounted signage, billboards, post and panel signs, channel letters, hanging signs, scoreboards and A-frame signs. SignPly must be edge-sealed for outdoor use.

Specifications

Sizes Available	Finished Faces	Colors	Sheet Weight
48" x 96" (1/2")	1 side/bare aluminum backer	White*	52 lbs.
48" x 120" (1/2")	1 side/bare aluminum backer	White*	65 lbs.
