

Omega SignBoard Benefits

- Omega SignBoard offers a strong, economical sign panel with a glossy, white vinyl surface that will not flake or peel.
- Ideal for the application of pressure sensitive vinyl.
- Easy to fabricate with standard carpentry tools.
- Average life expectancy for this panel should be 3-5 years, depending on the climate and UV exposure.
- Available in single and double-sided white vinyl finishes.

Construction

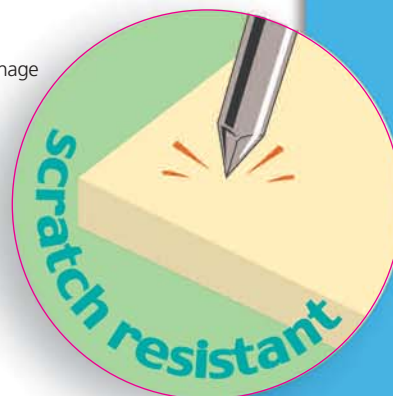

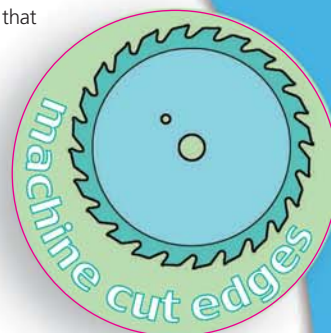

- Omega SignBoard's hardwood core is composed of a premium, exterior furniture-grade plywood with smooth, tight, sanded veneers for optimum surface flatness.
- Surface consists of a finished, brilliant white vinyl.
- The vinyl surface is scratch resistant and formulated with high performance UV inhibitors to reduce fading.
- Finished vinyl surface is covered with peel-off plastic masking for added protection.

Recommended applications

Ideal for pressure sensitive vinyl, Omega SignBoard panels are recommended for temporary signage including real estate signs, construction site signs and billboards. Please note that its hardwood core must be edge-sealed before using outdoors.
